

HSVF Market Data – Bandwidth Adjustment

TO: BOX Participants
FROM: BOX Market Operations Center
SUBJECT: HSVF Market Data – Bandwidth adjustment
DATE: August 7, 2024

Beginning Monday, **August 26, 2024** BOX Options Market LLC (“BOX”) will deploy an updated traffic shaping configuration for the dissemination of the High Speed Vendor Feed (“HSVF”) Market Data. Following the deployment of this configuration change, the bandwidth requirements to receive the HSVF Market Data will be as shown in the following table:

<u>Service</u>	<u>“A” Feed Bandwidth</u>	<u>“B” Feed Bandwidth</u>
Top of Book HSVF	5Gbps	1Gbps
Market Depth HSVF	2Gbps	1Gbps
PIP HSVF	1Gbps	1Gbps
Complex Order HSVF	1Gbps	1Gbps

Participants are reminded that they must not over-subscribe to market data (i.e. subscribe to multiple services of the feed on a connection where the total bandwidth would exceed the capacity of the connection).

For more details regarding HSVF Market Data dissemination, Participants are urged to refer to the updated [Network Connectivity Guide](#) available on the BOX website.
