

## HSVF Market Data – Bandwidth Adjustment

**TO:** BOX Options Participants  
**FROM:** BOX Market Operations Center  
**SUBJECT:** HSVF Market Data – Bandwidth Adjustment  
**DATE:** March 5, 2026

Beginning Monday, **March 16, 2026**, BOX Options Market LLC (“BOX”) will deploy an updated traffic shaping configuration for the dissemination of the High Speed Vendor Feed (“HSVF”) Market Data.

Following the deployment of this configuration change, the bandwidth requirements to receive the HSVF Market Data will be updated as shown below:

Service	“A” Feed Bandwidth	“B” Feed Bandwidth
Top of Book HSVF	5Gbps	1Gbps
Market Depth HSVF	2Gbps	1Gbps
PIP HSVF	1Gbps	1Gbps
Complex Order HSVF	<del>1Gbps</del> <u>2Gbps</u>	1Gbps

Data Recipients are reminded that they must not oversubscribe to market data (i.e. subscribe to multiple services of the feed on a connection where the total bandwidth would exceed the capacity of the connection).

2026-017

### **Specifications & Technical Documentation**

Please refer to the **BOX Network Connectivity Guide** for more information regarding HSVF Market Data dissemination.

Data Recipients must contact the BOX Market Operations Center to request the BOX Network Connectivity Guide.

### **Contact**

Please contact the BOX Market Operations Center at (866) 768-8845 or by e-mail at [BOXMOC@boxoptions.com](mailto:BOXMOC@boxoptions.com) should you require additional information.
